# DEMAL OF REQUEST FOR ISSUE OF BONDS

Application of Washington **Utilities Company Rejected** by Utilities Commission.

### MUST AWAIT DECISION **UNDER ANTI-MERGER LAW**

Transfer of Stock of Washington Railway and Electric Company Under Consideration.

declined to grant the application of the Washington Utilities Company for authority to issue \$10,000,000 worth of

about 2) per cent of the stock of the Washington Railway and Electric Company, purchased before the anti-merger law went into effect, and other certificates of indebtedness, which were to be trans-RIMINAL COURT NO. 1-Justice Gould, ferred to the corporation under the terms of an agreement reached last November by which that concern and the Washington and Virginia Railway Company were amalgamated. Engineer Commissioner Harding, chairman of the utilities commission, which

today gave a public hearing on the application of the corporation for authority to issue \$19,000,000 worth of bonds, stated that the bond issue plan will not be considered until the question of the application of the anti-merger law to the case has been decided.

#### Provisions of the Law.

The law prohibits the acquiring or holdng of the stock of a local public utility by another corporation. In the proposed mortgage, which provided for the issue of 5 per cent bonds not to exceed \$10,-000,000 face vale in fifty years, the stock referred to is pledged as a portion of the security for the bonds. Should the commission decide that this stock is held in violation of the anti-

merger law, the corporation probably will be forced to work out a new financing plan which will take no account of the violating section 813 code; sentenced to benitentiary for two years and six months; attorney, A. W. Scott.

United States agt. Pearl M. Thomas, Company, and Norman Grey of Camden, N. J., vice president of the concern, con-tended that the holding of the stock of the Washington Railway and Electric

Company is not in violation of the antimerger law, since these securities were acquired by the coropration prior to the passage of the law. Both took the ground that the law and W. E. Ambrose.

United States agt. Roscoe Jackson; the act creating the public utilities commission power to authorize the holding of the stock referred to and

#### Doubts Regarding Stock Transfer.

Commissioner Harding did not appear to that the merger of the Washington Utilibert Butler, murder; plea, guilty to sec-ond degree; sentenced to penitentiary had completed the transaction regarding for twenty-five years each; attorney, T. the transfer and cancellation of stock and asked a number of questions indicatnon-support plea, guilty; sentenced to jail for eleven months and twenty-nine whether the stock actually had been days; placed on probation; attorney, A transferred prior to the going into effect

of the anti-merger law. The chairman of the commission also directed a number of inquiries to the corporation company heads as to the status of the stock acquired from the Washington Railway and Electric Company. It was explained that this stock, while owned by the Washington Utilities Company, is held by the United States Mortgage and Trust Company of New York, as trustee.

## Present at the Hearing.

In addition to the utilities company officials there were present at the hearing Clarence P. King, precident of the Washington Railway and Electric Company and J. J. Darlington, counsel for the latter company. Mr. Darlington told the commission that the evident policy of Congress was that not more than 20 per tion should be held by another. He expressed the opinion that the

anti-merger law was not applicable in the case under consideration, since the Washington Utilities Company holds less than 20 per cent of the capital stock of the Washington Railway and Electric Company.

If the commission decides that the law is not applicable it probably will posed will be considered.
